It will be interesting to see how true to the movie this piece will be – which was gritty, raw, sometimes violent, covering themes of sex, drugs and rock n roll teen lifestyle – if you haven't seen it, think 'Trainspotting' in terms of style. (Although in our opinion Trainspotting was a far superior British film).

Sex, Drugs, and Rock 'n' Roll: The American Counterculture of the 1960s offers a unique examination of the cultural flowering that enveloped the United States during that early postwar decade. Robert C. Cottrell provides an enthralling view of the counterculture, beginning with an examination of American bohemia, the Lyrical Left of the pre-WWII era, and the hipsters.

Hippie refers to a subgroup of the 1960s and early 1970s counterculture that found its earliest beginnings in the United States,

becoming an established social group by 1965 before declining during the mid-1970s. The developing hippie ethos soon influenced the Beatles and others in the United Kingdom and Europe, and they in turn influenced their American counterparts.

History See Social effects of rock and roll. The rock and roll lifestyle was popularly associated with sex and drugs. Many of rock and roll's early stars (as well as their jazz and blues counterparts) were known as hard-drinking, hard-living characters. During the 1960s a decadent lifestyle of many stars became more publicly known, aided by the growth of the underground rock press which ...

Beer & Alcohol. Alcohol is probably the most commonly used drug for initiating or enhancing sexual intercourse. According to some studies, it might be involved in as much as half of all sexual interactions involving young people. That said, most people report that this drug is used mostly to remove social inhibitions.
