Last Minute Risk Assessment - WPC Building Services A Last Minute Risk Analysis is a short and final assessment at the workplace, filled out by workers. Often a LMRA is a short checklist that has a few common subjects; safety, health and environment. The purpose of a LMRA is to create awareness and exclude potential risks.

LMRA - Last Minute Risk Assessment In the last minute just before you start a task, intentionally "STOP and THINK" about what you are going to do in terms of: • Understanding the task and hazards • Assessing the risks • Mitigating the risks LMRA's must be done for all tasks. Petroleum Oriented Safety Training - WPC Building Services

Last Minute Risk Assessment. Stop and Think. A Last Minute Risk Assessment is done by the person completing the task at hand and is not recorded. " Ask yourself - what is my next task at hand? " Ask yourself - what are the risks? " Ask yourself - what can I do to protect myself and make sure I don't get hurt or hurt those around me? " Assess yourself - is my mind engaged and do I have a "safety first" attitude.
